Enabling the shift to an Agentic-first enterprise. Led by 3x founder Corey Segall with 25+ years of enterprise leadership, ChangeEnable combines deep expertise in agentic AI strategy, organizational change management, and entrepreneur & capital mentoring — with proprietary frameworks that structure the conversation from boardroom strategy to sprint-level execution.

SERVICES

AI Strategy & Transformation	Lane 01
Agentic AI Strategy & Roadmapping	Define your agentic AI vision, prioritize use cases, and build an actionable roadmap using the ACMF framework. Delivered via 1–2 day Business Workshop.
Enterprise Program Delivery	Embedded PMO leadership for complex multi-workstream technology programs. ServiceNow, AI implementations, cross-functional delivery.
Executive Advisory & Coaching	Strategic thought partnership for founders and CxOs navigating technology-driven change. Operational depth meets emerging technology foresight.
Change Management & OCM	Lane 02
Digital Transformation & Change Mgmt	Full Prosci ADKAR methodology across all three phases: Preparing, Managing, and Reinforcing. 14-tool coaching and tracking toolkit. Tailored to the size and complexity of each change.
Entrepreneur & Capital Mentoring	Lane 03
Capital Readiness & Investor Access	Capital readiness coaching followed by 5–10 targeted, warm, thesis-matched introductions to angels, VCs, and family offices. Not 50 blind emails.
Founder Coaching & 0-to-1 Advisory	Hands-on mentoring covering business model design, go-to-market, co-founder dynamics, equity, cap table fundamentals, and the landmines most first-time founders hit around capital raising.

PROPRIETARY FRAMEWORKS

STRATEGIC ACMF	Agentic Capability Maturity Framework Four dimensions (Business, Operating, Delivery, Architecture) across four maturity levels. Structures enterprise-wide strategy: Boulder → Rock → Pebble → Sand.	Agentic Maturity J-Curve Six-level progression model for how human-AI collaboration evolves within any function. Maps the productivity dip through the acceleration and compound return phase.
